

BECOMING A REGISTERED CHILDMINDER IN BFC

www.forcessocialwork.com

WHAT DOES A REGISTERED CHILDMINDER DO?

As a registered childminder, you will provide flexible childcare for one or more children under the age of eight, for more than two hours a day, in your own home for reward.

Childminders offer professional home-from-home childcare and early education, looking after small groups of children of different ages and from different families.

Childminders are perfectly placed to support the early learning and development for children of all ages, working closely with parents to provide bespoke childcare. Childminders need to comply with the early years foundation stage (EYFS).

If the opportunity of a career change or the prospect of running your own business, in your own home appeals to you then childminding could be exactly what you're looking for.

BFSWS will support you through the application process and help arrange your training, we aim to complete application to registration in 12 weeks. Steps can be taken concurrently; you don't need to wait for one step to be complete before you start the next.
